

I am an XM radio subscriber and benefit from the variety and quality they offer that is available no where else. I listen to the traffic and weather channels daily. I pay a monthly fee for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I strongly urge you to reject the NAB's petition 04-160 and instead urge you to support XM's ability to provide the kind of programming that I demand and deserve.

Thank you
